WITH

INTERNATIONAL  
HOUSE  
PHILADELPHIA

Hands down, it is the best all-ages album I've ever come across. - *New York Family Magazine*

Elena Moon Park has found a way to incorporate Asian elements with American elements in grandly metaphoric sort of way that says something powerful and positive about the potential of cross-cultural exchange, and on that note, about the immigrant experience. But also? It's just fun to listen to, and that's enough in and of itself. - *About.com*

Wow! Elena Moon Park embraces both her family tree and musical roots in her latest CD 'Rabbit Days And Dumplings'. Well done! - *Robert Drake, Producer Kids Corner, WXPB-FM, Philadelphia*
